

# UVH REFERRAL PROCESS

We'd like to share some useful information for you to use when referring clients and patients.

We know how important it is to provide your patients with the care they need. At times, advanced and specialty care needed could be overwhelming for clients. Please feel free to share this information with them when preparing for their visit to UVH.

**Emergency Referrals** - Upon arrival, a nurse will meet the clients in the parking lot or lobby and another nurse will escort the patient to our treatment room for immediate assessment and any necessary supportive care

**Specialty Referrals** - We are proud to offer specialty care in Ophthalmology and Rehabilitation. *\*Oncology services will be temporarily unavailable until further notice.*

## Referral Pricing

Policies and pricing subject to change. We will keep you updated.
